WORK EXPERIENCE

Frontend Developer Intern | CodeAlpha : Certificate

June 2025

- Developed responsive user interfaces using **React.js, JavaScript (ES6+), HTML5, and CSS3**.
- Built reusable components and integrated **REST APIs** using Axios and Fetch.
- Ensured cross-browser compatibility and improved overall user experience.

Full Stack Developer Intern | Technohacks : Certificate

Nov 2025 – Feb 2026

- Developed full-stack web applications using **React.js, Node.js, and Express.js**.
- Created and tested **RESTful APIs** for handling client-server communication.
- Worked with **MongoDB** and Mongoose for implementing database operations.

PROJECTS

Codicis – AI-Powered Web Code Editor

Live — GitHub

- Developed a **full-stack cloud-based code editor** enabling real-time multi-language code execution using **React.js, Node.js, and Express.js**.
- Designed and implemented scalable **RESTful APIs** and backend services to process code execution requests.
- Integrated **Judge0 API** for secure code compilation and **Google Gemini API** for AI-powered coding assistance.
Technologies: React.js, Node.js, Express.js, Monaco Editor, Judge0 API, Gemini API

Regentis – Full Stack AI Conversational Platform

Live — GitHub

- Developed a scalable **full-stack AI chat application** using **React.js, Node.js, and Express.js** to support real-time conversational interactions.
- Built secure and scalable **RESTful backend APIs** for handling chat requests and AI-generated responses.
- Implemented **MongoDB database design** with Mongoose to store and retrieve, conversations.
Technologies: React.js, Node.js, Express.js, MongoDB, Gemini API
